Approx weight:	200g	Rennet:	Vegetarian
		Style:	Fresh
		Rind:	White bloomy

Commentary

Trinity is our new and exclusive cheese at Paxton & Whitfield, created in collaboration with Hollis Mead Dairy. Located in Dorset, Hollis Mead Dairy produces cheese from their own milk, following regenerative farming practices. Their "Pasture for Life" accreditation ensures that their cows are 100% pasture-fed, prioritising animal welfare, nature, and biodiversity.

Trinity is a mould-ripened, triple cream soft cheese handmade using high-quality, organic cow's milk and cream from Hollis Mead Dairy. Our goal behind this cheese is to support and work with a small-scale producer while adding a distinguished addition to our cheese range.

The carefully chosen shape of Trinity allows for a perfectly balanced soft cheese with a remarkable depth of flavour. The exceptional quality of the milk shines through in every bite, evident in the beautiful bloomy rind, the indulgent breakdown of rich cream, and the harmonious contrast with the fresh, chalky core.

For those seeking an even more indulgent cheese, Trinity is also available in a truffled version. Trinity with Truffles features a layer of black truffles, imparting an earthy flavour that complements the cheese beautifully.

Technical Specification

Ingredients: Organic Cow's Milk , Organic Cream , Starter Cultures, Vegetarian Rennet, Salt

Place of provenance: Product of England

Allergens: Milk and derivatives
